

TRUE VALUE
GREEN

OUR STORY

We are an engineering-driven the 1st ISO 9001:2015 & 14001:2015 Certified importer and distributor of pipeline systems, tiles and sanitary ware in Sri Lanka and cater to both commercial, residential and infrastructure projects. Cutting-edge and highly durable brands of porcelain tiles and slabs, pipeline systems, adhesives, water proofing material and epoxy flooring supplement our product portfolio and sustainable business practices form the core of our culture.

VISION

To become the most innovative and creative total solution provider for all building requirements.

MISSION

To deliver true value which exceeds customer requirements in collaboration with industry professionals.

CHAIRMAN'S MESSAGE

"It's not just our international Renowned Brand and dynamic range of products that differentiates us from every other tile manufacturer and supplier in the country. It's the fact that we strive everyday to deliver on our promise to exceed expectations of our consumer both in terms of the quality of our products and the excellence in service. In terms of our sheer professionalism, we could quite literally have no better name than "True Value" "

TILES

UNIQUE SIZE, DESIGNS AND ECO FRIENDLY TILES

True Value offers the total package that addresses the aesthetic and performance requirements of Engineers, Designers, Architects and homeowners. The brands of porcelain tiles and slabs we offer are manufactured in an environmentally friendly manner and combine the best of aesthetics and functionality. All of these indoor and outdoor tiles combine the features of being abrasion / chemical resistant, stain resistant; impact resistant; very low water absorption feature with very high reflection level and come in varying sizes. These porcelain tiles and slabs exceed the highest classification specified in ISO 13006 product and ISO 10545 testing standards.

WHY SELECT A BIGGER TILE? LESS NUMBER OF JOINTS.

- Less grout means less labour.
- More Sanitary surface as less bacterial growth.
- Higher strength means greater durability
- Easier cleaning
- Rectified edges ensure more elegant spaces.
- The bigger tile is the WORLD TREND TODAY!

Sizes available

Guangdong Monalisa New Materials Group Co.,Ltd.is located in Foshan,the Ceramic City of China.It is a large-scale ceramic enterprise that integrates scientific research and development, professional production and marketing.The company was set up in 1992 and now it's listed in SHENZHEN STOCK EXCHANGE .Through years of development,Monalisa Group now owns the production bases which cover over 1.3million m2.And have 25 modernized production lines with an annual productivity of 30 million m2.The company has also passed the International management System ISO 9001:2008,ISO 14001:2004 & ISO50001:2011.Monalisa is known for its quality & innovation through countinuous enhancements in their production lines.

Grespania is an international ceramic manufacturing company, producing collections which boast both innovative technical properties as well as innovative cutting edge designs. A combination of ongoing investment in further improving the manufacturing process, continual adaption to latest advances in design, and a permanent concern for the 'good of the environment' have all helped 'stamp' the Grespania brand as a global market leader for the past 40 years Grespania has three factories all equipped with state-of-the-art technology and the most advanced processes for the production of porcelain floor tiles, white body wall tiles and large format porcelain slabs up to 120x360 in size in varying thicknesses.

Kale GROUP

Laying its foundation with Canakkale Ceramic Factories Corporation in 1957, Kale Group pioneered the formation of the ceramics industry in Turkey, and has become an industry giant internationally with its investments. It has grown over the course of time with investments in machinery and equipment manufacturing, defense, chemistry, electrical appliances, energy, IT, transportation, tourism and food industries. Kale Group is currently comprised of 17 companies, and is regarded as one of the most important industrial enterprises of Turkey with over 5,000 employees, spanning over a geography across Canakkale to several locations in Turkey to Italy and Russia. Kale Group is Europe's 3rd and the world's 12th largest ceramics manufacturer and in construction chemical sector, it is ranked first in Turkey and the region and 5th in Europe in terms of production and sales volume. Moreover, as a 100% private Turkish company, it is taking on a leading and influential role in defense and aviation sectors. Kale Group provides its products to consumers in over 100 countries via more than 400 sales points.

Kale Group, adopting the principles and beliefs of its founder Ibrahim Bodur, has always made contributions to communities for over 50 years through its industrial identity, in education, health, culture, arts, science and sports. Dr. Ibrahim Bodur established the Kaleseramik Education, Health and Social Welfare Foundation to achieve continuity in these contributions.

CARPET

EPOXY & PU

EPOXY & PU Based flooring Solutions

UNICA produces and recommends systems based on projects with regards to specific dye and covering production for the companies involved in heavy services and industrial production. L'unicfloor Epoxy Floor Covering Systems finds a broad area of application in every sector active in industrial production in particular, food, textile, petro chemistry. The floor coverings being a factor that directly affects the production quality in factories of heavy industry and industrial production, they increase the quality of production and provide a long term mechanical and chemical resistance.

Epoxy floor coverings which find an area of application especially in the textile, food and hospitals where dust emission is unwanted or in factory floors where heavy machinery and equipment and hardware are produce that require mechanical resistance or in the floors of dyeing plants, drug production facilities, petro chemistry facilities that are exposed to heavy chemical impacts provide the establishments with advantages of production performance, product quality, compliance with international standards and cost in medium and long term.

* **Asiri Hospitals, Kandy - Approx. 8,000 sqm**

* **United Diaries, Ambewela Farms - 2,300 sqm**

SYSTEM GROUP

SYSTEM GROUP

“System Group” was created in a small town inland of Pesaro as a result of an idea by entrepreneur Alvaro Boscarini who, in 1979, had founded Centraltubi. The group was formed at the start of the 1990’s when, after 12 years as a leader in the production of polyethylene pipes, Centraltubi was joined by Futura, a company operating in the pipe fittings, accessories and specials market.

FUNCTIONAL, HIGH QUALITY & DURABLE

The brand of high quality and durability pipeline systems we offer comply with the following standards:

- EN 12201-Polyethylene (PE) Pipes for pressure piping system for water supply sizes 20mm to 1000mm
- EN 13244-Polyethylene (PE) Pipes for pressure piping system for drainage and sewerage sizes 20mm to 1000mm
- EN 13476-Corrugated Polyethylene (PE) Pipes for non-pressure piping system for sewerage and drainage sizes 1656mm to 1200mm Polyethylene Manholes

The brands of castings and water meters we offer only the best of their type and are of standards such as EN 124,ISO/EEC 4064 and BS4504 to ensure high performance, reliability and durability

- PROJECTS:**
- * Greater Kandy Waste Waster & Sewerage - Expansion of Pipe Borne Sewerage.
 - * Coverage in Dehiwala / MountLavinia, Rathmalana & Ja-ela Waste Water Collection and Treatment Project
 - * Tangalle Water Supply Project
